

Amendments to the Specification

Please amend the second paragraph at page 14 of the specification (page 14, lines 8-11) to read as follows:

Consideration can also be given to the fixing of the particle 6' in a cavity open at both sides, such as e.g. in a cylindrical hole 4' passing through the tablet body 1' in which is fixed a corresponding, cylindrical particle 6' having a core 8' and a covering 9' (figs. 4a and b).
